

Tabletop Access to BOSS' Most Powerful Multi-Effects.

Powered by COSM® modeling, the GS-10 Guitar Effects System has everything guitar and bass players need for incredible tone—like all-new amp models, overdrive/distortion modeling, independent compression and more. Effects can be edited via front-panel knobs, or using bundled software. And recording is easy, thanks to a built-in USB port and convenient onboard speaker system. It's like having the ultimate BOSS effects processor and an audio interface in one!

- BOSS' ultimate guitar effects system with convenient tabletop design
- Contains COSM amp models and multi-effects derived from the popular GT-6, plus COSM Compression and Bass Amp Modeling derived from the GT-6B
- USB port for simplified recording with a computer
- Up to 11 simultaneous effects including Preamp/Speaker, Compressor, Overdrive/Distortion, Delay, Chorus, Reverb, FX1, FX2 and EQ
- Easy operation via backlit LCD display, rotary knobs and buttons
- Includes a Guitar/Bass input, XLR Microphone input and stereo Auxiliary input
- Onboard stereo speaker system provides handy monitoring
- Comes with Cakewalk Music Creator recording software and GS-10 editing software

Advanced COSM Effects

When you plug into the GS-10, you get the same awesome-sounding COSM effects made famous in the BOSS GT-6 and GT-6B, plus a selection of all-new guitar and bass amp models—48 types total! Each effect section is clearly laid out on the front panel—complete with rotary knobs and a convenient Tone Modify function for easy tweaking.

The GS-10's COSM effects include new guitar amp models like "T-AMP" and bass amp modeling, plus wah modeling and a variety of overdrive/distortion models. You'll also find essentials like delay, chorus and reverb, plus two "FX" processors with everything from flanging and phasing to unique effects like Harmonist, Defretter, Rotary and Uni-V (independent compression and EQ are also provided). It all adds up to the most powerful multi-effects processor on the market.

Made for Professional Recording

Once you've crafted the ultimate tone, record it in pristine digital quality using the coaxial digital output. Or use the GS-10's USB port to interface directly with recording software. Not computer-savvy? Don't worry. One cable is all it takes to record your playing and guitar tones in pristine, 24-bit digital sound quality. No sound card to mess with, no mixer or adaptors needed. The GS-10 also comes bundled with editor software that makes tweaking the effects easy—perfect for use with your favorite recording software.

Built-In Stereo Speaker System

With the GS-10's onboard speaker system, there's no need for external monitors and cables. So whether you're at home or in a hotel room, you can plug in and start playing through the amazing selection of COSM effects. An Auxiliary input is also provided, making it possible to play along with a CD player or drum machine. For killer tone when recording or performing, the GS-10 is all you need.

Bundled GS-10 Editor Software

This software makes editing the GS-10's multi-effects ultra-intuitive, since all effect sections can be seen and tweaked from one convenient screen.

Includes Cakewalk Music Creator Software

Music Creator is the easy way to record music on a PC. It comes with powerful loop-based tools, DXi soft synths, DirectX effects and more.

GS-10 Specifications

■ **Signal processing** A/D: 24-bit AF method, D/A: 24-bit, Digital Output/USB Audio: 24-bit ■ **Sampling rate** 44.1 kHz ■ **Memory** 200 (PRESET: 100, USER: 100) ■ **Nominal Input Level** Input: -10 dBu, Mic Input: -40 dBu (Balanced), Aux Input (L/R): -10 dBu ■ **Input Impedance** Input: 1 MΩ, Mic Input: 2.2 kΩ, Aux Input (L/R): 33 kΩ ■ **Nominal Output Level** Output (L/R): -10 dBu, Guitar Amp Out: -10 dBu ■ **Output Impedance** Output (L/R): 1 kΩ, Guitar Amp Out: 1.5 kΩ ■ **Digital Out** EIAJ CP1201 ■ **Speaker Out** 15 w + 15 w ■ **Display** 16 x 2 LCD (backlit) ■ **USB function** AUDIO IN/OUT, MIDI IN/OUT, MIDI Control IN/OUT ■ **Connectors** GUITAR/BASS INPUT, MIC INPUT

(XLR/1/4" TRS), AUX INPUT (L/R), OUTPUT (L/R), GUITAR AMP OUT, PHONES, EXP PEDAL/CTL1,2, DIGITAL OUT, USB, MIDI OUT, MIDI IN, AC IN ■ **Power supply** AC 14 V; AC adaptor (BRC-series) ■ **Current Draw** 800 mA ■ **Dimensions** 329 (W) x 231 (D) x 85 (H) mm, 13 x 9-1/8 x 3-3/8 inches ■ **Weight** 2.25 kg, 5 lbs. ■ **Accessories** AC adaptor, USB cable, GS-10 Software CD-ROM, Cakewalk Music Creator kit, Owner's Manual ■ **Compatible OS** [GS-10 Editor]: Windows 98/Me/2000/XP, Mac OS 8.6 and 9.x [Cakewalk Music Creator]: Windows 98/Me/2000/XP
